Catalogue of Forged Ironwork

\$5.00

Welcome

Our 2015 Catalogue is now in your hands. We continue to hand-forge ironwork that will last for many years, with no worry of falling apart or breaking. As a Kootenay Forge Ltd customer you will know that from the first cut of steel to your pieces being mailed, all of us here care about what we do and pass this care on to you. The top quality of our products is the most important aspect of our business, and we do our best to offer the best price we can for our hard work.

A BROOM OR A BRUSH?

We can offer you a choice of a black tampico round brush or a unique Shaker style woven broom made by North Woven Broom in Crawford Bay, using unprocessed broom corn. Both are made of plant fibre and will not melt when hot coals are swept. Please specify which you would like. If you do not specify, a tampico brush will be sent.

Kootenay Forge is situated in Crawford Bay, a little hamlet on the shores of Kootenay Lake in south-eastern British Columbia. It is an area renowned for its natural beauty and also its artists and craftspeople. We invite you to visit us if you are in the area. Within walking distance of our shop there are a Broommaker, a Woodcarver, a Copper Enamelist, a Pottery studio, a Jeweller, and a Weaving studio. Local establishments also display works by local artists. We are proud to be one of The Artisans of Crawford Bay.

In our gallery you will see all the items in this catalogue plus other one-of-a-kind pieces. You are welcome to watch us work and learn a little about this age-old craft. Our workshop is always open to the public.

Blacksmithing is the original craft of working with iron, going back 3,500 years. Although the tools have changed over the years, we still follow in the footsteps of the blacksmiths of old, using many of the same techniques. With small, energy efficient propane forges, we heat the steel to 2,000° F (1,200° C) and hammer, bend and twist it into all the beautiful shapes you see here. We use a few modern tools, but it's with hammers that we forge life into the red hot steel, and the ring of the anvil is music to our ears.

Visit our web site to learn more about us, see more pictures of our workshop, and to keep an eye out for new products.

We also do custom work - please contact us
